Attendance Policy

School policy dictates that students who miss class for unexcused absences (to school or the period itself) may receive a zero for any work due or assigned during that class period. Additionally, assignments requiring class participation may be negatively impacted by student absences. Consequently, regular and prompt class attendance is essential to the student's educational experience.

Academic Fraud, Plagiarism and Cheating

Plagiarism is the practice of copying words, sentences, images, and/or ideas for use in written or oral assessments without giving proper credit to the source. Academic dishonesty also involves the portrayal of someone else's work as one's own when such citations are inappropriate to the assigned task. Cheating is defined as giving or receiving illegal help on anything that has been determined by the teacher to be an individual effort. Academic dishonesty is a serious offense and will result in consequences that can significantly affect a student's course grade. See the Student Handbook for additional information.
